in a nutshell

Hello, my name is Aurel Bonneau and I am a 21 years old french designer. What I like is to create innovative and immersive designs. In this sense, I'm looking for a 6 months internship that could be extended by a work-study. Feel free to discover my portfolio by following the link above.

Skills

Design Masteries

Figma (prototyping / interactive components)

Design System

Branding / UX Workshops

Others

Blender 3D

WebGL

Front / End

Experiences

Freelance | from June 2021

I've done several UX / UI freelance missions including one for the junior company Synerghetic.

Marketing Project Manager at Hello Birdie | From July 2020 to October 2020

3 months internship in the start-up Hello Birdie as a marketing project manager. I was in charge of communication and various marketing elements such as user audits.

UVDE communication team (digital culture seminar) | From September 2020 to June 2020

Participation in the elaboration of promotional campaigns for UVDE meetings, and intervention during the meetings to bring the debate.

Projects

Many UI challenges

You can discover some of them on my portfolio!

UX/UI design of a mobile application - Velhome

Realization of questionnaires to survey the needs of users in order to best respond to them in the design of the application. Creation of wireframes and mock-ups following the principles of system design. Advanced prototyping of the mobile application.

Parcours

- Master 1 at HETIC (school for tech and digital professions)
- TOEIC score of 865
